Integrating Management Systems

- What we heard from presenters
- What are the challenges
- How do we go from “Good” to “Great”

What We Heard From Presenters

- **ISM is being implemented:**
 - In a progressively consistent and uniform manner
 - In a more effective manner
 - In situations where not implemented before (Security & Emergency Management)
- **Integration of Management Systems is Occurring**
 - ISMS
 - ISSMS
 - EMS
 - EM
 - QA
 - TEAM
 - Engineering
 - Project Management

What Are the Challenges

- **Uniformity, consistency, & efficiency continue to be a challenge**
- **Work involvement is critical to success**
- **Senior management ownership is necessary**

How do we go from “Good” to “Great”

- **Paradigm shift is needed**
- **Move from ISM to IWM/IM**
- **More involvement by line programs**
- **More involvement by senior management**
- **Use the tools**
 - **HPI**
 - **VPP**
 - **Improved Technology**
 - **Performance Data**
