

Mobile Health Provider Program

Veterans Health Administration
VA Office of Information and Technology

2015

What is the VA Mobile Health Provider Program?

- The VA's Mobile Health Provider Program is designed to equip care team members with mobile technology to enhance care delivery for Veterans.
- Launched in 2014, this program aims to improve the health of Veterans by leveraging the power of mobile technology to transform the way clinicians and patients interact.

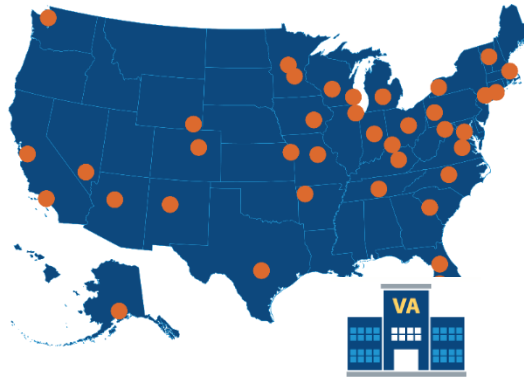

How many care teams does this program reach and where are they located?

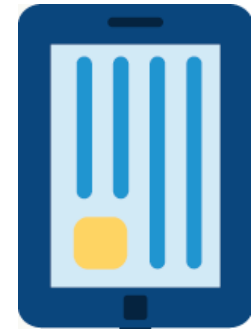

12,000+

VA care team
members received
mobile devices

30+

VA medical facilities
received devices
across the country

100-600

Mobile devices
(tablets) were
delivered at each site

How does the Mobile Health Provider Program improve patient care?

Convenient access
to real-time clinical
information

Easy access to **medical
tools** at work, home or
on-the-go

Will improve access to
patient generated data

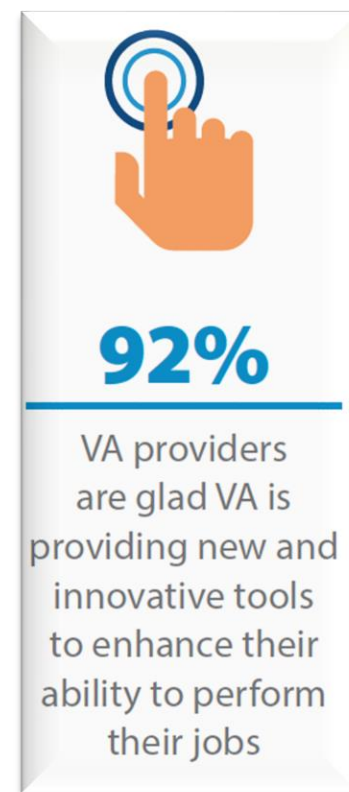

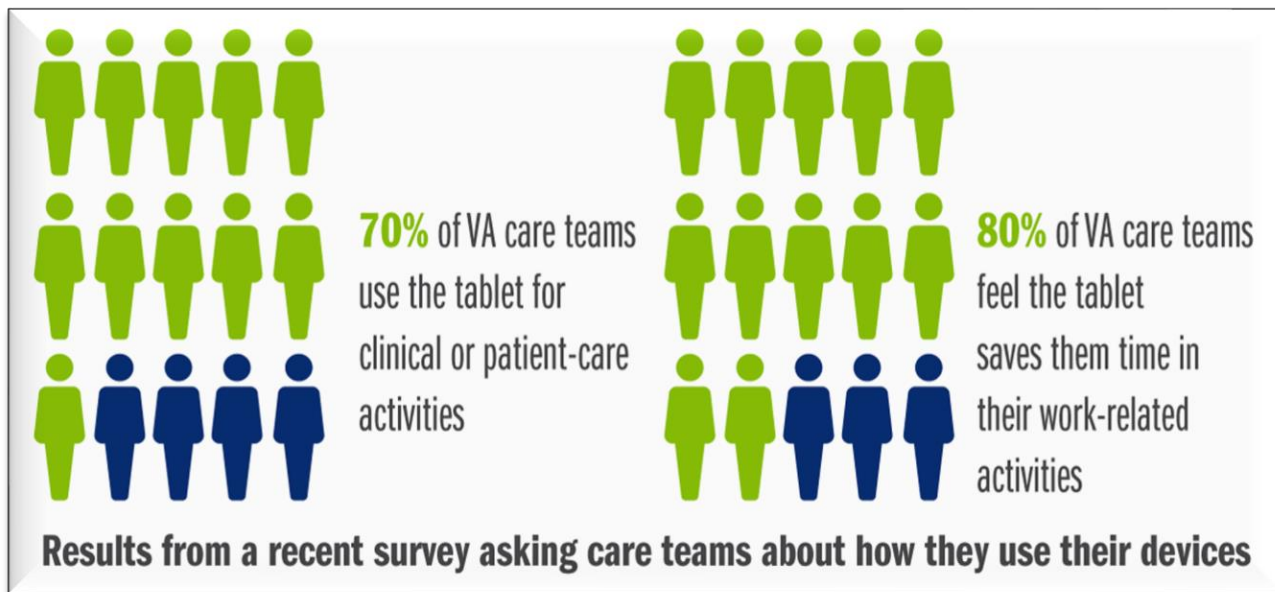

Secure communication
between patients and
providers

**Mobility of patient
information** throughout
the medical center

What are care team members saying about their mobile device?

What are care team members saying about their mobile device?

**"My office is in one building,
but I see patients in three
different buildings.
Sometimes finding a work station
and logging on can take as long as 30
minutes to access a chart...
with my device, I can do it in minutes."**

Christopher Mastriano
Speech Pathologist
VA Boston Healthcare System
