

Saving Lives and Keeping Traffic Moving: Quantifying the Outcomes of Traffic Incident Management (TIM) Programs

Paul Jodoin, TIM Program Manager,
U.S. Department of Transportation, Federal
Highway Administration

U.S. Department of Transportation
Office of the Assistant Secretary for Research and Technology

Four TIM Programs – Range of Practices for Outcomes

- Foundation for TIM outcomes is measuring TIM performance
- Many different methods and assumptions applied in quantifying and monetizing TIM outcomes
- Many reasons why one should monetize benefits
- Where is your program and what is needed in TIM benefits guidance?
