

Welcome to the National Interoperability Information eXchange

- The National Public Safety Telecommunications Council (NPSTC), at the request of several Statewide Interoperability Planning Committees, is offering a service (www.NIIX.org) that includes tools to assist states with the development of their statewide communications interoperability plans.
- NIIX is a free service that acts as a centralized clearinghouse for interoperable communications-related information. Interoperability planning committee members can access peer-created documents and share information with each other. NIIX represents a collaborative effort of local, tribal, state, and regional organizations to share statewide plans, agreements, policy documents and other related information through a web-based, secure location.

NIIX Services

- Centralized access to peer-supplied documents, including various plans, agreements, governance, policy, legislation, SOPs, funding and other useful documents
- Ability for members to submit documents to a national library for sharing with peers
- Security and authentication ensures that only members with appropriate authorization have access to sensitive planning documents

NIIX Services Continued

- Collaborative section will allow Statewide/regional administrators to access state/regional sub-communities, with the ability to securely manage and share draft documents, solicit comments, and manage member notification and feedback (note this functionality will be available the first week of August, 2007)
- Contact list of other NIIX community members
- NPSTC-provided member training, assistance, and support

Click on the "Register for NIIX" button to get started.

The screenshot shows the NIIX Home Page, a service of NPSTC. The page features a header with the NIIX logo and the text "National Interoperability Information eXchange" and "A SERVICE OF NPSTC". The main content area includes a "Member Login" section with fields for "Username: [Forgot username?](#)" and "Password: [Forgot password?](#)", a "Go" button, and a "Register for NIIX" button. A red arrow points to the "Register for NIIX" button. Below the login section is a "Why register for NIIX?" link. The "Events and Announcements" section includes "States Begin Planning Sessions:" with details about Rhode Island and Colorado meetings, and "NPSTC Celebrated its 10th Anniversary in Denver June 12th, 2007". The "About NPSTC" section features the NPSTC logo. The right sidebar contains links for "What's New?", "Frequently Asked Questions", and "Related Links". The footer includes a navigation bar with links: Home | About NPSTC | About NIIX | Terms of Service | Privacy | Accessibility | Security | FAQ | Help | Contact Us, and a copyright notice: "NIIX is a Service of the National Public Safety Telecommunications Council Copyright 2007 All Rights Reserved".

About NPSTC

NPSTC

WELCOME to the National Interoperability Information eXchange

The National Public Safety Telecommunications Council (NPSTC) is providing NIIX as a free service to the interoperability-planning community. You will find tools here to assist you with the development of your statewide communications interoperability plans.

NIIX provides a centralized, secure warehouse for interoperable communications related information. Registered NIIX members can access peer-created documents and share information with each other. Members can also use NIIX tools to collaborate in the creation and management of their statewide plans.

We hope you find NIIX useful. Please send us your comments and suggestions as you use this site. We value your feedback.

Events and Announcements

States Begin Planning Sessions:
Rhode Island kickoff meeting will be held on July 12, 2007.
Colorado will be having its statewide planning kickoff meeting in Denver on July 19, 2007

...More states and dates will be posted as they become available.

NPSTC Celebrated its 10th Anniversary in Denver June 12th, 2007

The meetings and celebration were the best attended NPSTC meetings to date. Standard Channel Naming was approved by the Governing Board and forwarded to the FCC as part of the nationwide rebanding.

NIIX Registration Request

Complete the following information and press submit to become an authorized user of NIIX. Remember to check the Terms of Service Box.

You will be emailed a confirmation with your user id and password.

Contact Information:

Mr, Ms, Capt, etc.	<input type="text"/>
First Name *	<input type="text"/>
Last Name *	<input type="text"/>
Discipline *	<input type="text" value="Community Preparedness"/>
Job Title *	<input type="text"/>
Organization or Company: *	<input type="text"/>
Professional Address *	<input type="text"/>
City *	<input type="text"/>
State *	<input type="text" value="Select State"/>
Zip *	<input type="text"/>
Email *	<input type="text"/>
Work Phone *	<input type="text"/>
Alternate Phone	<input type="text"/>
Fax	<input type="text"/>

** Denotes required fields*

You create your own user ID and password. Your ID can be up to 30 characters long.

Your password must be at least 8 characters long, with at least one character each from 3 of the following 4 types: upper case letters, lower case letters, numbers, and/or special characters.

Eligibility Information:

Please provide the name, email address, and phone number for a contact (Human resources office, manager, etc.) who can confirm your status as an emergency response provider or homeland security official. If you are a contractor working for a government agency, please provide contact information for the agency for whom you are working.

Employment Verification Contact: *

If you are not currently employed as an emergency response provider or homeland security official, please explain your eligibility for requesting access to NIIX.org:

Login Information:

- Your username must be at least 8 characters long.
- Your password must be between 8 and 16 characters long and must contain at least one uppercase letter, one lowercase letter, and one "special character" (@, #, \$, %).
- Your password cannot contain any blank spaces.

Once logged on, the display allows a registered user to select either:

- Recent Documents through the link provided at the top of the left hand column
- Selected documents by topic from the pick list links in the left hand column
- All public documents for a state by clicking on that particular state.

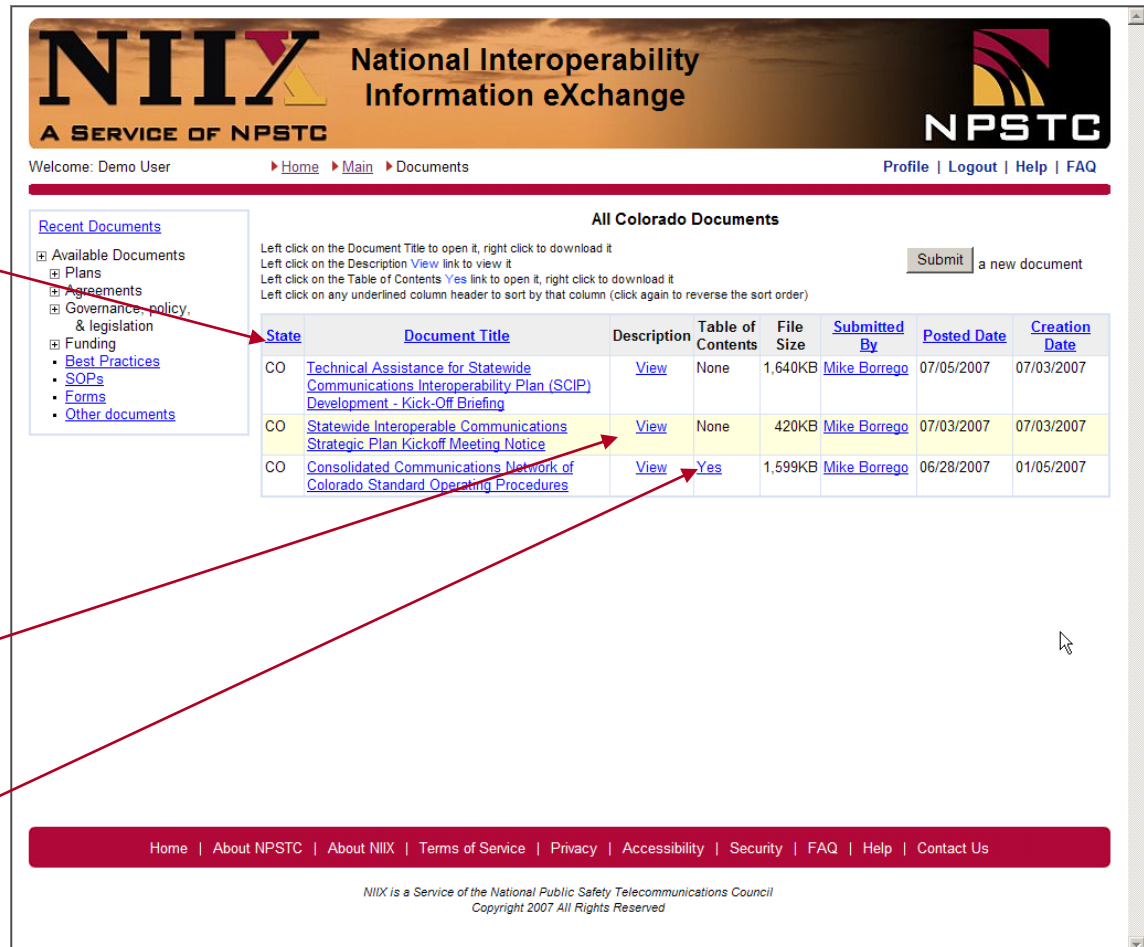

When all documents for a state are selected, this page appears.

Any blue/underlined field in the heading can be used for sorting.

Any blue/underlined field in an entry can be used for added information:

- Description provides a document synopsis
- Table of Contents displays the documents Table of Contents, if available.
